

REMARKS/ARGUMENTS

Favorable consideration of the present amendment is respectfully requested.

The present amendment is submitted to correct minor informalities in the allowed claims in the above-identified application. The claim amendments are not believed to change the scope of the claims and thus are not believed to affect the allowability of the claims. Further, entry of the present amendments are believed to be proper so that the claims are consistent with the disclosure.

More particularly, by the present amendment each of claims 3 and 7 is amended to properly recite the inequality therein. The amendments to Claims 3 and 7 are believed to be clear from the original specification, for example see Claim 20 that properly recites the same inequality.

Further, Claim 15 is amended to make a minor correction, and Claims 12 and 25 are amended by the present amendment to make a clarification of a referenced lens, which change is believed to be self-evident from the original disclosure, and thus also not raise any issues of new matter.

The specification is also amended to correct a minor informality.

As the presently submitted amendments only correct minor informalities in the claims without changing the scope of the allowable subject matter of the claims and corrects a minor informality in the specification, entry of the present amendment is believed to be proper.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
